## *About us*

---

Casablanca ElitEvent is a Wedding Planner agency. To say it with the words we prefer, we like to make dreams come true. This is really our greatest passion. Our idea of Wedding Planner was born after a decade of experience in contact with the spouses in the context of the flowers and more specifically with the bride and her wishes regarding the decorations. Over the years we have noticed changes in fashions, styles and above all the way of organizing Marriage and with it increasing stress and worries about things to do and consequently guests' expectations.

We from Casablanca ElitEvent like to write fairy tales, we like to listen to the wishes of our spouses, we like to see their shiny eyes while they tell us what they would like, we like to draw together the most beautiful picture of all, but what we love most of all is To Make Dreams Come True.
